

38th AIAA Dayton-Cincinnati Aerospace Sciences Symposium

6 March 2013

Sinclair Conference Center
Dayton, OH

www.aiaa-daycin.org/dcass

The Dayton-Cincinnati Aerospace Sciences Symposium is a unique venue for technical interchange with members of the regional aerospace community. Please visit the AIAA Dayton-Cincinnati Section web site at <http://www.aiaa-daycin.org/dcass> for detailed information, abstract submission, and registration.

The Symposium program includes up to twelve parallel sessions in the morning and afternoon, a special session on professional development, and a keynote address by Dr. Hans Mark on the challenges posed to the Air Force by emerging threats. Dr. Mark is the Centennial Energy Chair in Engineering at the University of Texas at Austin, a former Secretary of the Air Force, and a former Deputy Administrator of NASA. Attendees are also invited to participate in the associated Art-in-Science competition by submitting videos or images that combine technical content and aesthetic appeal.

Technical Presentations are solicited in all general areas of aerospace S&T, including fluid dynamics, propulsion, materials, structures, controls, avionics, sensors, human factors, combustion, fuels, turbomachinery, power, and space. All presentations are limited to 20 minutes, including questions. No written paper is required, and works in development for other technical forums are welcome. Best presentation awards will be made for each technology area.

Abstract Submission is solely through our website, which includes instructions and will acknowledge your submission by email. The total number of presentations is limited by room availability; therefore, if necessary, abstracts will be selected based on quality and timeliness. First consideration will be given to complete abstracts submitted by the priority deadline. Abstracts received by the final deadline will be considered based on abstract quality and symposium need. Please allow sufficient time for any required public release approval.

Dr. Hans Mark
Keynote Speaker

CALL FOR ABSTRACTS

Priority Deadline:

14 January 2013
